EDUCATION

Arizona State University, Barrett, The Honors College — Tempe, AZ | Expected May 2027
B.S. Computer Science, Minor in Data Science | GPA: 3.74/4.00
Coursework: Data Structures & Algorithms, OOP, Computer Systems & Assembly, Linear Algebra, Statistical Modeling, Digital Design

TECHNICAL SKILLS

Languages: Python, Java, C/C++, JavaScript, TypeScript, SQL (PostgreSQL)
AI / ML: PyTorch, TensorFlow, Scikit-learn, MediaPipe Pose, Gemini API, Google Vision API, LLMs, RAG
Web, Cloud & Tools: React, Next.js, Node.js, Express, FastAPI, Flask, Tailwind CSS, Firebase, Supabase, AWS, Docker, Git, Twilio

EXPERIENCE

Systems Automation Intern | Pulse Drones LLC — Tempe, AZ | Jun 2026 – Aug 2026
- Built a Blender add-on that automated asset-creation tasks, cutting design workflow time by an estimated 30%.
- Built a full-stack client portal (React, Node.js, Firebase) that cut routine status emails by an estimated 40%.
- Implemented live data syncing between admin and client platforms (updates in under 1 minute) and automated asset delivery from internal systems to the portal.

Technical Intern | Global Career Network — Tempe, AZ | May 2026 – Present
- Build and maintain the organization's website; shipped 4 interactive features (3D card tilt, parallax, split-text animation, magnetic buttons) and fixed CSS/grid layout bugs.

Researcher | Barrett Fellows Program, Complex Adaptive Systems — Tempe, AZ | Aug 2026 – Present
- Research how course content aligns with labor-market data, integrating curriculum datasets with the Lightcast API.

Research Intern | GenYES Program, Speak Out Sisterhood — Remote | Sep 2026 – Present
- Conduct empathy interviews and synthesize insights to shape program design for a partnership with Girl Up Singapore.

Global Support & Cloud Operations Intern | Axway — Phoenix, AZ | Jun 2023 – Jul 2023
- Analyzed 2,000+ B2Bi support cases for recurring failures; wrote 40+ knowledge base articles to reduce repeat tickets.
- Automated monthly reporting with Excel and Python scripting, saving an estimated 5+ hours per week.
- Worked with the Cloud Operations team on AWS and shell scripting; improved internal Confluence documentation.

PROJECTS

DevLog | Python, FastAPI, Firebase, Gemini API — 1st Place, Google Track, Innovation Hacks 2026 (100 teams)
- Built an AI development memory layer: an event-driven pipeline that tracks codebase changes and rationale, syncing in real time across 3 clients (React dashboard, FastAPI backend, VS Code extension).

RealToGo | Node.js, Twilio, Gemini API, Supabase — Top 3, GlobeHack 2026
- Built a WhatsApp AI real estate assistant that turns voice notes, text, and location into structured listing briefs, using 3 real-time Twilio webhook components that handle concurrent input.

FitAI (In Progress) | Python, PyTorch, MediaPipe Pose, Gemini API, Firebase
- Building a privacy-first fitness and physical therapy platform: a real-time computer-vision pipeline tracks 33 body landmarks at 30 FPS with all health data kept on-device, feeding a PT dashboard with custom rehab protocols.

Operations Agent | HackAzona
- Built an incident-response dashboard that flags simulated sensor spikes and presents an AI diagnosis and playbook.

LEADERSHIP & ACTIVITIES

Community Assistant | Barrett Honors College — Tempe, AZ | Aug 2026 – Present
- First point of contact for 40+ residents: check-ins, conflict mediation, and campus-resource referrals; nightly rounds, incident response, and move-in/move-out coordination with staff.

Peer Mentor & Camp B Facilitator | Barrett Honors College — Aug 2025 – Present
- Mentor 40+ first-year honors students on academic planning; host monthly events; lead Camp B small groups (since Jul 2026).

Conference Committee | SWE at ASU, WE26 regional conference (300+ attendees) — May 2026 – Aug 2026

Intern | ASU Programming and Activities Board — Sep 2026 – Present

Involvement: Women in Computing Society (WiCS), Rewriting the Code, Technologicas CS Outreach
